ABOUT

An aspiring **front-end developer** familiar with the **React framework**, interested in application development. Enthusiastic about expanding my programming knowledge and staying updated with industry trends. I strive to develop efficient applications and consistently enhance my skills. I eagerly embrace challenges and thrive in collaborative environments, working with teams to develop innovative solutions.

EXPERIENCE

Project Engineer - **Wipro Limited**
2022 March – Present **(2 years)**

Project Description: My role includes monitoring, reviewing and performing Health check reports of systems and Applications.

Developed **client-side scripts to automate** the health check processes, reducing manual monitoring efforts.

Technologies Used: JavaScript, HTML, CSS

Impact:
- Improved reliability of the reports by automating the process, thus reducing human errors.
- Reduced the time and effort required for system monitoring.

Personal Project:
This front-end Project replicates the "Redbus" Bus Booking website.
https://github.com/nareshkrishnaa/Redbus-replica

Technologies Used: ReactJS, Bootstrap
